Abstract. 11

Mines :- Mineral Concessions - Certificate of approval - Grant of - Instructions issued by G.O. Ms. No. 306. Development Dept. Dated 22nd Jany. 1959

Read the following :-

Order :-

According to rule 6 of the Mineral Concessions Rules 1960, a certificate of approval may be granted to any person who in the opinion of the State Govt. is in a position to employ an efficient prospecting agency or possesses special knowledge of geology or mining. Rule 7 of the same Rules lays down that an application for a certificate of approval should, among other things, contain a statement showing the technical qualifications and minimum experience of the applicant and his managers, if any, and such other particulars as may be necessary to satisfy the State Govt. of the competence of the applicant to hold the certificate. But it is observed that enquiries made by Collectors are confined to the financial capacity of the applicant to employ a prospecting agency, without reference to arrangements for employment of such agencies. Where a certificate is granted [illegible]

[illegible] ~~Secretary~~ to state. Further, in assessing the "special knowledge" of geology or mining the usual qualification accepted by the Collector is the previous working of some mine, but there is no attempt to find out if the applicant himself has worked the mine or if the mine has been worked efficiently. The purpose of the Rules which is to grant certificates only to parties who are earnest to discover minerals will not be served by the issue of certificates without reference to these points. It is, therefore necessary that in assessing the Special Knowledge of an applicant in geology and mining, the fact that he has worked personally in any mine and has acquired such experience as may be regarded as a Special qualification for prospecting, should be precisely considered. As regards the employment of a prospecting agency the applicant should be asked to nominate the agency and to satisfy the Collector that the agency will be available for service, at any time. In dealing with applications of certificates of approval, Collectors of districts - are requested to examine precisely the above heads and to report on them categorically, when forwarding applications either for the grant of fresh certificates or for the renewal of existing certificates.
